DESIGN ISLAND ASSOCIATES, INC.

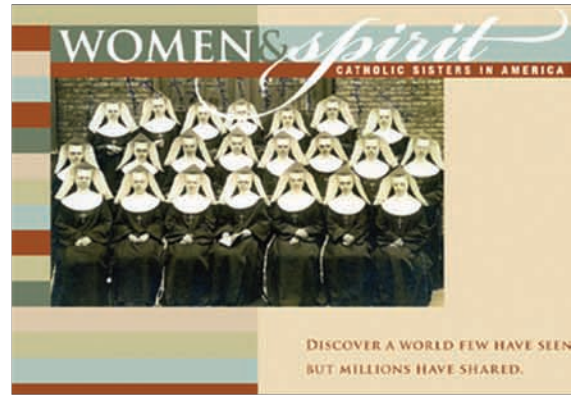

### Women & Spirit: Catholic Sisters in America Leadership Conference of Women Religious

Design Island developed and produced media for the Women & Spirit Traveling Exhibit, which has been featured at The Smithsonian and Ellis Island. Women & Spirit reveals the mystery behind a small group of innovative American women—the Catholic Sisters -- who helped shape the nation’s social and cultural landscape.

Design Island traveled across the country interviewing Catholic Sisters, capturing their present day stories as well as showcasing their involvement in health reform, education and politics. The Central Core videos are a series of up close and personal interviews with modern day sisters who tell their personal stories and shed a light into their world. The exhibit and media introduce you to a world millions have shared but few have seen.
